Dear Sir or Madam,

D Goodwin Painting & Decorating Ltd is an ambitious company based in Mansfield, Nottinghamshire.

We are currently engaged by Bridge Carpentry Ltd, Cytra Ltd, R G Carters among others, working on Aldi, KFC, and other projects including universities, offices, and new build housing. Working nationwide as required, we have a good working knowledge and understanding of all aspects of "shopfitting" work.

We have successfully completed over one hundred and twenty Aldi stores since 2014, working nationwide for B C L, whilst continuing to complete many other projects.

During 2021, we delivered fifty new build homes for Robert Woodhead Ltd. From 2022 to date we have completed over three hundred new build homes for Mercer Building Solutions, a part of the Lindum and Fitzpatrick Group.

We are now part of the Dulux recycling scheme, and continually working towards 100% recycling.

We have also been doing more on-site spraying, shop fronts, UPVC windows, doors, cladding, soffit and fascia and more internal spray works. This is something we are hoping to be more involved in over the coming years.

We can deliver all aspects of Decorating across the commercial, industrial, and domestic environments, all our employees hold current CSCS cards and IPAFF and every project which requires five or more contractors has a dedicated SSSTS trained operative on site.

The company was established in 2014 and our success has grown from our focus on Quality Workmanship, Health and Safety in the workplace and a positive 'can do' attitude.

We can provide:

- **R. A. M. S**
- **C. O. S. H. H**
- **Written recommendations / Contacts of current clients**
- **C. S. C. S**
- **IPAFF**
- **Employee liability insurance**
- **Public liability insurance**
- **Health & Safety consultant**
- **Nationwide powered access**
- **On Site Spraying**

I hope that this introduction is of interest to you and that you may consider giving us the opportunity to tender for you on any suitable projects you may be considering in the future. You can find more information and photos of completed projects on our web site.
